

# Parallels RAS POC with Microsoft Azure

To start a trial of Parallels RAS in Azure, follow these steps, with the help of videos and resources from the Parallels RAS Library:

If you follow this sequence, you should have a complete environment ready in less than 30 minutes.

## Initial Steps

| Video Name                                            | Video Link                                                      |
|-------------------------------------------------------|-----------------------------------------------------------------|
| Deploying your Appliance and Quick Start              | <a href="https://youtu.be/tslUcghfv2k">youtu.be/tslUcghfv2k</a> |
| How to Upload, Install, and Publish your Applications | <a href="https://youtu.be/8ogQDrncgyl">youtu.be/8ogQDrncgyl</a> |
| How to Invite Other Users to Test Parallels RAS       | <a href="https://youtu.be/TgboVWkdy4">youtu.be/TgboVWkdy4</a>   |
| How Drag & Drop Works                                 | <a href="https://youtu.be/KA872rke-Us">youtu.be/KA872rke-Us</a> |

## Enhancing Your Environment

| Video Name                              | Video Link                                                      |
|-----------------------------------------|-----------------------------------------------------------------|
| Adding RAS Performance Monitor          | <a href="https://youtu.be/J6M_EZE3Dh0">youtu.be/J6M_EZE3Dh0</a> |
| Adding RAS Reporting                    | <a href="https://youtu.be/8ogQDrncgyl">youtu.be/8ogQDrncgyl</a> |
| Adding New Remote Desktop Servers       | <a href="https://youtu.be/NmVBRuuswyQ">youtu.be/NmVBRuuswyQ</a> |
| Adding new Gateways & Publishing Agents | <a href="https://youtu.be/X3BOp4F_oLo">youtu.be/X3BOp4F_oLo</a> |

## Upgrade

| Video Name                      | Video Link                                                      |
|---------------------------------|-----------------------------------------------------------------|
| How to Upgrade to Parallels RAS | <a href="https://youtu.be/Ol9GbtSX-38">youtu.be/Ol9GbtSX-38</a> |

## HALB (High Availability Load Balancer)

| Video Name | Video Link                                                      |
|------------|-----------------------------------------------------------------|
| On Premise | <a href="https://youtu.be/j4SDrIR2mUI">youtu.be/j4SDrIR2mUI</a> |
| AWS        | <a href="https://youtu.be/f8Wag10QODw">youtu.be/f8Wag10QODw</a> |
| AZURE      | Deploy VMs on High Availability Node                            |

## Special Features

| Video Name                                 | Video Link                                                      |
